

EPI-Genetics workshop

TRANSFORMING DNA MEMORIES

In the cells of every organ and system of our bodies lives our entelechy, the memory and intelligences of who we have been and the blueprint of who we can become!

BRISBANE: October 31 to November 03

In this four day Transforming DNA Memories workshop

You will learn:

- How to reduce mental and emotional suffering related to separation anxiety, abandonment, old loves and lovers, misunderstandings, ritual abuse, fears, nightmares, relationship issues...
- How to stop the cycle of habit, anger, judgment, self-loathing...
- Stop being the victim. Stop repeating negative behaviors
- Clear subconscious murmurs of past traumas
- Understand your emotions that play a role in relationships and illness

Attending TRANSFORMING DNA MEMORIES and you will get a better understanding of what triggers are in your memory bank that hinder your wellness, career fulfilment, joy and happiness.

Your DNA is Not Your Destiny - You Can Heal Your Life.

Transforming DNA Memories gives you the skills for permanent change.

EPI-Genetic **TransGeneration Trauma** patterns can be changed from, disabling to enabling, debilitating to ability, misunderstanding to understanding, unloved to being love...

Understand not all behaviours are learnt, many are genetic ancestral behaviours that can be changed. **Learn How To:** Activate all your productive intelligences.

PRESENTER: Human Behaviour Specialist, Sylvia Marina, Author and Creative Director of **Transforming DNA Memories**, has a unique approach to connecting people with their highest potentials, transforming their lives for the better. Sylvia is one of Australia's top professional change experts, connecting you to your wisdom. An international speaker and educator Sylvia specialises in identifying the passions, emotions and trauma's that influence habits and oppression, illness and disease.

In business, **Practitioners** who learn these skills have a major advantage. At the completion of this 4-day workshop you will have the skills and know how to implement them into your practice. TFH 1 or equivalent an advantage. CE points 32. ATMS. AKA. IKC certificate. Qualify to teach this powerful work.

BRISBANE HOST: Vanessa Searle 0411331884

ABOUT: Sylvia Marina ND. FMAKA.

In the early 1980's a serendipitous moment led to Sylvia Marina inviting a Touch For Health Kinesiology practitioner/instructor from Melbourne to work in her Applecross clinic in West Australia. TFH was a new modality to Sylvia; she went on to study all the major branches of kinesiology!

In 1985 she was the Founding President of the Touch For Health Association Inc. and one of eight founders of the Australian Kinesiology Association Inc.

1990 Sylvia received a special recognition award For her contribution to the growth of Touch For Health from Dr John Thie, International Annual Meeting, San Diego, California USA.

2001 Special Award, for outstanding dedication and involvement in the growth and development of Kinesiology – Sylvia was granted the prestigious 'Fellowship' status with the Australia Kinesiology Association.

2016 Leader of Influence Award Within Perth's Small Business Community.

Professional Member: Australian Traditional Medicine Society. #0778

Founding President: W.A. TFH & Professional Kinesiology Association Inc.

Fellow: AKA. Australian Kinesiology Association

Board Member: IKC Professional Development School.

Her natural abilities are supported by 35years professional background in orthomolecular medicine, behaviour science, kinesiology and 19 complimentary modalities.

For fifteen years Sylvia had a full-time busy clinic in Applecross, West Australia as well as her health school teaching Touch for Health, Three-In-One Concepts programs and PKP. She was also a Silva lecture until she received an invitation to design and be the program director presenting 5 day holistic wellness retreats for cancer patients in West Australia and Singapore – these highly successful programs were a fusion of medical and complimentary healing modalities.

Through these years Sylvia was a sole parent to her two daughters.

A serious motor vehicle accident brought Sylvia's career to a sudden halt and for the next few years she concentrated on healing her body. Faced with the prospect of never having the strength to practice as a fulltime Kinesiologist again - she is a master teacher and author, the accident never took that skill from her. Sylvia artfully created Self Mastery programs for people with impaired immune system. By request her colleague Irene Oram asked for permission to apply the skills of one of the Mastery programs for kinesiologists. The result, Irene wrote the first 17 pages of **Transforming DNA Memories** – Sylvia further developed the work into a 78-page workbook accredited with the IKC - International College Kinesiology, ATMS - Australian Traditional Medicine Society Inc. AKA - Australia Kinesiology Association Inc.

Transforming DNA Memories is translated in six languages and taught in fifteen countries. Sylvia designed and wrote the IKC accredited workshop **Return To Love**. These highly regarded programs are best value to the individual attendee & practitioners alike – the workshops are designed to be a personal experience, giving practitioners the depth of meaning they need to work effectively with their clients. All who attend gain deeper clarity and perspective.

This work integrates with all your kinesiology and wellness modalities. Not everyone who attends are practitioners, many come for the personal development experience of changing inappropriate negative patterns of behaviour, and to learn how to access all your intelligences so you can be all you dream of.

Kinesiologists, Health Practitioners, Coaches, immediately following the 4-day workshop you will be able to implement the protocol with your present work.

PARTICIPANTS COMMENTS

Sylvia, Thank-you so much for your visit to Bergen, Norway. The days were wonderful and heart opening on so many levels. I experienced this week at work when colleagues and patients were unusually open, and I have been thinking of a message I received in a session from a speech of Nelson Mandela where he says, 'if you release your one fear you automatically give other people subconsciously the same opportunity' - I have been in the core of my fear and this week following Transforming DNA Memories have had wonderful dreams telling me important knowledge...I am really looking forward to seeing you again. Have a beautiful day. Love Benedicte - Bergen, Norway.

It is nice to take a class that is different from the norm. These four days in Transforming DNA Memories with Sylvia Marina have been mostly about working on my own issues and I feel it has been beneficial. The most practical is the step-by-step guide to a meditation I am comfortable with. I am looking forward to applying these new corrections with my clients. ~ Alexis Costello. Specialized Kinesiology Instructor & Practitioner. Costa Rica.

After attending Transforming DNA Memories Janet wrote: I feel very nurtured, listened to and understood. I have learnt skills and practices without judgement, confusion or feeling overloaded. This has been a time of enlightenment and joy. These 4 days were insightful, loving, rewarding, inspiring. ~ Janet. Auckland, New Zealand.

Transforming DNA Memories is indeed about transforming your DNA in the best possible way. It is a great spiritual journey back to the ancestors with lots of respect and great revelation. This is one of those courses I want to attend again and again, for greater knowledge about myself. Thank you Sylvia. Dorthe Starberg Poulsen. Dansk Pædagogisk Kinesiologiskole/EnterFusion House of Kinesiologists. Copenhagen. Denmark.

Hannah wrote; Sylvia is a patient, gentle guide, intent not on her goals but rather the goals of each individual within the class. The work is profound, the EPI-Genetic workshop Transforming DNA Memories process is simple and easy to understand. Thank you for designing a course where any individual can join on the healing journey of their life, cutting negative energy ties from our cellular memory resulted in a depth of healing I wasn't expecting. Thank you for the safe space. ~ Hannah Shelburne. Arkansas. USA.

Transforming DNA Memories with Sylvia Marina was a lovely blend of people. I rarely get to take a course. It was a treat to attend a class that includes so much personal healing. I look forward to integrating the work, new corrective techniques and new ways of looking at issues, with what I do. ~ Kinesiologist. Holly Berezowski. Kelowna. BC. Canada.

Phenomenal, Wonderful, Needed.... are the words Shari expressed after taking the EPI-Genetic workshop Transforming DNA Memories class – understanding that help to address and clear very deep seated issues that are outside of our consciousness was just what I needed. Sylvia has designed the course so that people with no previous experience can utilize the skills immediately and for health practitioners it is a great modality addition to integrate with your present work. ~ Shari Goates. Arkansas. USA.

Deep Healing of Core Issues. Gentle and Safe. Insightful and Well Paced. Sylvia held an excellent pace as we healed, learnt, retained. She is an excellent teacher informative and thorough. Sylvia taught with great respect for all spiritual and cultural backgrounds. Transforming DNA Memories is an awesome course, I am interested in more classes with Sylvia. ~ Gina Johnson. Maple Ridge. BC. Canada.

I enjoyed Sylvia's teaching style and wisdom. I look forward to assisting clients find the 'missing link' in their lives, patterns and behaviours. Natasha Kent. NSW. Australia
